I keep belaboring this, I am sorry, but it occurred to me that this one might be more convenient for [REDACTED] should that play into our decision?

Or was she recommending it having our location in mind - I think this is the closest one after [REDACTED] the only trouble with this one is that it's a bit of a haul from the airport (around an hour and a half of a drive).

Thank you. So, is Mary Sikora recommending this facility over [REDACTED]?

For your consideration.

Jackie,

What a pleasure to meet you and the rest of the team. I think everyone came away with a new picture of how tires are handled, downsized and recycled.

I want to pass on a contact for the [REDACTED] Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] They do make crumb rubber in the infill size as well as crumb rubber for other markets. It's a very good plant and they welcome a visit.

You should contact:

**Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]**

I spoke to [redacted] yesterday and he is aware that you will be calling or contacting him by e-mail.

[redacted] is a long time colleague and extremely knowledgeable about tires. I know he will set up an excellent tour for you.

All the best,

Mary
